7. Responsive Design
8. Chakra
9. MUI
10. Font-awesome
11. Bootstrap
12. Github Gitlab

BACK-END

1. SQL

Ulisses Malanski

Web Developer Front-End

I'm Web Developer, my professional career begins on Research sector (Museum) where I worked for two years. I acted as Art-Teacher, for 7 years on Public Schools and also as Tattoo artist for 5 years, where I developed illustrations and designs.

Today I found myself in the technology area (Front-end + Back-end), jumping head first on Computing because I want to merge my knowledge on art and design with software engineering and also learn and develop projects with programming languages.

At my free time I do search for newest technologies, compose some experimental music and create drawings and animations.

🕒 Work Experience

🎮 Tattoo artist - Illustrator

Unionttt Tattoo Studio (self-employed)

🕒 december 2019 - Present (2 years 4 months)

📍 Curitiba, Paraná, Brazil

- Create images, paintings, drawings and illustrations.
- Elaborate designs, sketches and story boards.
- Agility with digital paintings and drawings.
- Develop and apply tattoos based on clients references.
- Keep a controlled and clean ambient at the tattoo studio.
- Assist clients on the healing process.
- Cleaning, sterilization of the tattoo equipment and the tattoo studio.
- Elaborate designs and sketches.
- Keep up with the newest trends on health and the tattoo area.
- Meet and talk with clients about their ideas.
- Schedule Appointment.
- Orientate the client about the post tattoo cares, for appropriate healing.
